## EDUCATION AND PROFESSIONAL DEVELOPMENT

- **Bachelor of Science**, IT Engineering, Islamic Azad University - Branch of Ashtian, Iran (2011-2016)
- **Microsoft**: MCITP (Windows 2012 Server) – 2014
- **CompTIA**: Network+ - 2014

## PROFESSIONAL EXPERIENCE

### ConITser (Based in Toronto, Canada), Istanbul, Turkey

#### Frontend Developer (Freelancer) | November 2019 – June 2021

Working with Ontario's largest fleet management provider, developed Next-Generation Ground Transportation Management System (GTMS) software to Track, Dispatch and Invoice commercial vehicle operators using:

- JavaScript frameworks and libraries, Type.js, jQuery
- UI/UX Design (Adobe XD, Wireframe, Prototyping, Adobe Photoshop)
- Tailwind CSS, HTML5, SASS, CSS
- Debugging (Chrome DevTools, Stack Blitz)
- React Components
- Git, SVN, Jira, Bitbucket

### Hasin Group [RadinCo.], Tehran, Iran

#### Senior Software Engineer | August 2017 – October 2019

Hasin Group is one of the largest B2B and B2C platform providers in Iran. RadinCo, a member of Hasin Group, provides both development and operational services in the field of Banking and Payment solutions. I worked on broad range of DevOps activities using below listed Tools and Frameworks:

- Frontend Development of Monitoring System (Html, CSS, JavaScript, Bootstrap)
- Rewriting most of Queries in Oracle DB and MongoDB
- Improvement of operational Scripts
- Redesigning UI/UX using Adobe XD, Figma, Adobe Photoshop
- Development and debugging system reports and APIs (REST API and Web Service)

### IdeaCo, Tehran, Iran

#### Senior Software Engineer | August 2016 – July 2017

IdeaCo, the first provider of knowledge transfer management systems in Iran, has developed its software in modular method and I was part of the development team for TMS (training management system) and LMS (Learning Management System) modules, performing below tasks:

- Importing Customer's basic Information to SQL DBs Servers (T-SQL)
- Testing Software Codes (Chrome DevTools, Debugging)
- Improving UI and relative functionalities (CSS3, JavaScript, Html5)
- Consulting with client and providing customized Software Solution
- Developing custom report and analysis using Ms. SQL Business Intelligent
- Performing DB and Server administration, maintenance, data cleansing and replication

## **Software Engineering Group Farapayam, Tehran, Iran**

### **Database Administrator | April 2015 – July 2016**

*Farapayam Company is a provider of financial and accounting software. As a DB Administrator, I performed below tasks:*

- Supported, monitored and maintained databases using Microsoft SQL Server and Report Server
- Designed, Implemented and Tested Queries
- Performed Software Debugging for backend systems
- Created scripts and processes for data integration and maintenance.
- Modified existing databases to meet unique needs and goals determined during the initial evaluation and planning process

## **Chargoon, Tehran, Iran**

### **Software Implementation Specialist (Part-time) | June 2014 – March 2015**

*Chargoon company is a paperless enterprise communication systems developer. My work at Chargoon was project base and part-time as a Software Implementation Specialist, performing:*

- Deployment of the Chargoon software on Clints premises
- Providing Training to Client staff regarding the software
- Providing Technical support to the clients
- Performing software functionality tests.
- Installation and Configuration of IIS and Windows OS on Servers and Workstations

## **Cultural and Art Organization, Tehran, Iran**

### **Help Desk Specialist (Part-time) | June 2012 – June 2013**

*I worked for this company part-time as a Help Desk Specialist and some of my tasks are here:*

- Installed equipment for data communications networks (cabling, wireless routers)
- Monitored operational and security procedures for numerous computers in the network, related systems administration and maintenance protocols.
- Performed system maintenance and upgrades, including patches, service packs, hotfixes and new security configurations.
- Diagnosed and resolve hardware, software and network problems and replaced defective components.
- Traveled to remote office locations to install nodes and implement client software rollouts.

## **MAIN SKILLS/TOOLS:**

*I have used various tools and gained experience in a broad range of IT fields such as Networks, Databases, Software Testing, Debugging and implementation.*

*In addition, I have acquired a deep level of knowledge about Banking and payment solution as well as Dispatch Systems. Here is a list of skills or tools that I have used during my years of work:*

HTML5 CSS3 Bootstrap Tailwind CSS SASS JavaScript TypeScript AngularJS React.js React Native API SPA Framework JSON jQuery MySQL Oracle DB MongoDB MS. SQL WordPress Figma Adobe XD Adobe Photoshop Adobe Illustrator Wireframing Prototyping Design System Chrome DevTools Stack Blitz SVN Jira Git
